EXPERIENCE

Frontend Developer Intern

Jun 2025

Next-Generation Adaptive System Lab (NASL), NIT Patna

- Developed the official NASL website using HTML, CSS, and JavaScript.
- Integrated REST APIs for dynamic laboratory and research data.
- Built responsive UI components, improving accessibility and user experience.

Frontend Developer

Aug 2025

CUCEK Photography Club

- Developed scalable frontend applications using React.js and JavaScript.
- Integrated REST APIs using Axios for efficient data handling.
- Created reusable UI components and optimized rendering performance.

PROJECTS

Wanderlust | MongoDB, Express.js, Node.js, EJS

GitHub | Live Demo

- Developed a full-stack property listing application with RESTful APIs supporting authentication.
- Implemented secure authentication using Passport.js and Google OAuth.
- Integrated MongoDB with Mongoose for efficient database operations and schema design.
- Added image uploads, reviews, sessions, and cloud deployment.

RAG PDF Document Q&A Chatbot | Python, LangChain, Groq, Hugging Face, ChromaDB, Streamlit

GitHub | Live Demo

- Built a Retrieval-Augmented Generation (RAG) chatbot to answer questions from uploaded PDF documents.
- Implemented semantic search using Hugging Face embeddings and a ChromaDB vector database.
- Integrated Groq Llama models with LangChain to generate accurate, context-aware responses.
- Designed an end-to-end pipeline: document loading, chunking, embedding generation, retrieval, and response synthesis, served via an interactive Streamlit interface supporting multi-PDF uploads.

ACHIEVEMENTS

- Achieved a highest LeetCode Contest Rating of **1786**, securing Global Rank **2927** in LeetCode Weekly Contest 509 (Top 11.78% globally).
- Solved **350+** Data Structures and Algorithms problems across LeetCode, GeeksforGeeks, and Coding Ninjas.
- Secured **Top 3** position at Tink-Her-Girls Hackathon.
- Finalist at Code Clash 2024, organized by Model Engineering College, Kochi.
